

Time Tricks

Matt Costa

Do you think about me
Now that I'm gone
Is your life without me
Is it... is it better off

When you think about love
Does it rain or does it shine
I still think about you
Though it's been a long time

So please don't answer
If I try to call
And please don't mention
Our... our love at all

Once we shared a feeling
But those feelings have all gone
I still think about you
Though it's been so long

Well it's time, time, time
Playing tricks on my mind
Oh it's time, time, time
Playing tricks on my mind
Just when I think I forgot you

It might be the way that
The sun, it hit her face
Movies, still walking
Through an old, familiar place

That makes me think about you
And it boils up in my mind
Do you think about me
Though it's been a long time

Well it's time, time, time
Playing tricks on my mind
Time, time, time
Playing tricks on my mind
Just when I think I forgot you

Now do you think about me
Now that I am gone
Is your life without me
Is it... is it better off

Oh when you think about love
Does it rain or does it shine
I still think about you
Though it's been a long time

Well it's time, time, time
Playing tricks on my mind
Time, time, time
Playing tricks on my mind
Just when I think I forgot you
