

Always Carry You

Matt Maher

Beyond my understanding
Beyond the world I knew
Your plan appeared in front of me
Oh let it be
Done under me

Do not be afraid, every word is true
From the moment I believed, I've always carried You
To a world in need of a love that's true
From the moment I believed, I have always carried You

Before that fateful morning
Before the world was new
You saw, Your promise dawning
Oh let there be
Your light in me

Do not be afraid, every word is true
From the moment I believed, I've always carried You
To a world in need of a love that's true
From the moment I believed, I have always carried You

What would it be like to never be afraid
To be brave enough to live the way we were meant to live
To shine
I'll always carry You

I won't be afraid, for Your word is true
Every moment I believe, I'll always carry You
To a world in need of a love that's true
Every moment I believe, I'll always carry You

I won't be afraid, for Your word is true
Every moment I believe, I'll always carry You
To a world in need of a love that's true
Every moment I believe, I'll always carry You
