

As Long As I'm Singing

Matt Monro

As long as I'm singing
There's a bell up in my brain
That is ringing
Making a crazy ding dong

And if this band don't desert me
Then there's nothing in the world that can hurt me
I'll go on singing my song

Cos making music
Is more to me than a pleasure
Me and music
Go together like birds of a feather
As long as I'm singing

Then the world's alright
And everything's swinging
I'll go on singing my song

Give me trumpets legato
Trombones bravado
Then you add some rhythm

As long as I'm singing
There's a bell up in my brain
That is ringing
I'll go on singing
Long as I'm singing
I'll go on singing my song
