

This Is The Life

Matt Monro

This is the life, here's where the livin' is This is the life,
baby you're there This is the life, you've waited long enough G
irl you've arrived, breathe in that air

Wine and perfume, silver and candlelight Children make way, I'm
here to stay Nothing but class, that's how it's gonna be This
is the life for me

House at the beach, dinners at '21' Head waiters smile when you
walk in Hand-tailored suits, shirts with your monogram Feel of
real silk next to your skin

Top of the heap, first cabin all the way How sweet the song whe
n you belong Nothing but class, that's how it's gonna be This i
s the life for me

This is the life This is the life This is the life
