

# Mr & Mrs Smith

M. Pokora

Mrs Smith, she's my lady  
She's always been first  
So lucky I'm her daddy  
For better or for worst  
I know she sleep though  
A lovely angel  
But I always get what I want in the end

Tries to be so smart  
Genius, Mr Algebra  
Thinks he got me (Oh!)  
Thinking out silly boy  
He got me right (2x)  
He's dangerous (2x)  
I'm maybe sneaking but he's tricky  
I won't let him fool me again

She knows she's all that I want  
But you're underneath all of the front  
And I know she's on my lap  
So confusing and twistable  
Guess it's just how we do it  
Mister and Mrs Smith

Ready  
'cause tonight I warn you  
As soon as you get in beware I'm coming for you  
Ready  
I'll be all upon you  
Show you who's in control  
Let's get it started, come on

So bring that sexy  
Boy I want ya  
Bring it to me  
Come on  
So bring that sexy  
Girl I want ya  
Bring it to me  
Come on

Mrs Smith irresistible  
She's turning me on  
The west sun this morning  
Indicates the games have begun  
Her looks go get me  
Her words can shoot me  
But I better watch my back  
With her you never know

You're captured in my trap  
Like a mouse  
Imma get it get it  
Go and go baby  
Run, run but watch your back  
Start to chase (2x)  
Come to me

I love to see his sweat all wet, like a waterfall

She knows she's all that I want  
But you're underneath all of the front  
And I know she's on my lap  
So confusing and twistable  
Guess it's just how we do it
