

# Killing the Ghost

Matthew Ryan

There's a murder in the clover  
One move and it was over  
That monkey's one ego  
On four, now here we go

I will carve you from my life  
I couldn't care less, it feels all right  
I'm cutting it close, I'm cutting it close, I'm cutting it close  
I'm killing the ghost

Sleeping like a machine gun  
Your bedroom was no fun  
Falling down hard on my head was shooting black stars  
Never knew who you were, now I know what you are

I will carve you from my life  
I couldn't care less, it feels all right  
I'm cutting it close, I'm cutting it close, I'm cutting it close  
I'm killing the ghost

I will carve you from my life  
I couldn't care less, it feels all right  
I'm cutting it close, I'm cutting it close, I'm cutting it close  
We're killing the ghost

I will carve you from my life  
I couldn't care less, it feels all right  
I'm cutting it close, I'm cutting it close, I'm cutting it close  
I'm killing the ghost

I will carve you from my life  
I couldn't care less, it feels all right  
I'm cutting it close, I'm cutting it close, I'm cutting it close  
I'm killing the ghost

I will carve you from my life  
I couldn't care less, it feels all right  
I'm cutting it close, I'm cutting it close, I'm cutting it close  
I'm killing the ghost

I will carve you from my life  
I couldn't care less, it feels all right

I'm cutting it close, I'm cutting it close, I'm cutting it close
