

We Are Libertines

Matthew Ryan

We said goodbye
To the ties that drag
And ties that bind
We poured some drinks
Took a pill to calm our thoughts
Took a hit so we could think

We are libertines (x6)

No one says stop
No one says no
No one says please
Please come home

We drove that car
Just as fast as we could
Through the harder parts
What I can't see
Can't make me feel bad
It didn't happen to me
The great escape
We just smile and call it love
If you wanna call it rape
We own the house
And if it turns a greater kill
We'll burn it down

A crappy song
Rattles `round in my head
All night long
The perfect scheme
Flood our heads with useless shit
And make it feel like a dream
