Walking Miracles

Matthew West

Let me tell you 'bout William,
He's been fighting battles since day one
The doctors said his life was over,
Yeah, before it had begun
They said he'd never walk, but now he walks
They said he'd never talk, but now he talks
I guess you could say
He's a living, breathing, walking miracle

And there's Veronica, with a sign in the second row
Said, "Even Cancer couldn't stop me from coming to your show"
I guess I never thought, we'd meet again
But the very next year, we met again
I guess you could say
She's a living, breathing, walking miracle

Oh, they're all around us everywhere we go
The proof that we should never give up hope
'Cause we serve a God who turns impossible
Into living, breathing, walking miracles

This is for the fighter (The fighter) who's celebrating six months clean
For the marriage that was over, but somehow God redeemed
Anyone who's been up, against the odds
Just to find out, there is a God
Who's making us all
Living, breathing, walking miracles

Oh, they're all around us everywhere we go
The proof that we should never give up hope
'Cause we serve a God who turns impossible
Into living, breathing, walking miracles
We are living, we are breathing, we are walking miracles
We are living, we are breathing, we are walking miracles
We are living, we are breathing, we are walking miracles, miracles

Let me tell you 'bout you, yeah, you, do you know that you're amazing?
A one in a million masterpiece that's in the making
You might think, 'not me'
But every single breath, that you breathe
Is saying you are
A living, breathing, walking miracle, yeah

Oh, they're all around us everywhere we go (Everywhere we go)
The proof that we should never give up hope
'Cause we serve a God who turns impossible (The impossible)
Into living, breathing, walking miracles
We are living, we are breathing, we are walking miracles
We are living, we are breathing, we are walking miracles
We are living, we are breathing, we are walking miracles
We are living, breathing, walking miracles
