

Place and Time (Never Like This)

Maverick Sabre

And all it ever was the constant pursuit of us
And now it's all said and done
Would you come back to soothe me out?
Come keep me warm again

'Cause it's never been feeling right since
Come give me love again
'Cause it's never been feeling like this
Come give me love again
I'm easy to find
Just send me your place and time

All I should've been but I tried everything I have
And when you think of me
Can you forget the times went bad?

Come keep me warm again
'Cause it's never been feeling right since
Come give me love again
'Cause it's never been feeling like this
Come give me love again
I'm easy to find
Just send me your place and time
Come give me love
