

## So Free

Maverick Sabre

We can be so free  
Why's it been so serious?  
We can be so free  
Why's it been so serious?

Little kids with big sticks in projects  
Prison systems inflict the poorest  
Innocents, they ain't changed the laws yet  
It's criminal to engage with force yet wars are so lawless  
Got to be cautious  
Policemen will cuff you so thoughtless  
Whether it be the colour of your skin  
Or the number of your trim  
It's never from what's within  
Together we're struggling

Don't you cry  
Don't you cry  
All of my tears are for you  
And I don't know why  
I don't know why  
No one hears the truth

We can be so free  
Why's it been so serious?  
We can be so free  
Why's it been so serious?

Lonely single mother trying to make it on her own  
Nobody to love her, or to put her on her throne  
She grows, beautiful queen you'll never know  
How much I'm sorry for the men that came before  
Beat up and raped, treat like a slave  
He lost his way, you kept it brave  
Give me your pain and we can both fly away  
I don't want to see us so divided  
I don't want to deal with all the violence  
How we gonna heal if we keep silent?  
Been going on for years  
Through empires and kings  
They don't want to teach us to be righteous  
In school they're never teaching us the right things  
Is the power worth the hate that's in your eyes kid?  
I hope this place will change before I'm in a grave

Don't you cry  
Don't you cry  
All of my tears are for you  
And I don't know why  
I don't know why  
No one hears the truth

We can be so free  
Why's it been so serious?  
We can be so free  
Why's it been so serious?

We can be so free  
Why's it been so serious?  
We can be so free  
Why's it been so serious?
