

# Lights Down Low

MAX

Heaven only knows where you been. But I don't really need to know. I know where you're gonna go  
On my heart where  
You're resting your head  
And you just look so beautiful  
Just like you were an Angel

Can I stop the flow of time  
Can I swim in your divine  
Cos I don't I think I'd ever  
Leave this place

Ooh oh  
Turn the lights, turn the lights  
Down low  
Yeah  
Now I'm feeling you, breathing slow  
Cause baby we're just reckless kids  
Trying to find an island in the flood  
And Ooh oh  
Just turn the lights, turn the lights  
Down low oh.

Ooh oh  
Turn the lights, turn the lights  
Down low  
Ooh oh  
Turn the lights, turn the lights  
Down low

Under heavy skies in the rain  
You're dancing  
In your bare feet  
Just like we're in a movie  
Grab my hand and we're chasing the train  
I catch you looking back at me. Running through a cloud of steam.

Ooh oh  
Turn the lights, turn the lights  
Down low  
Yeah  
Now I'm feeling you, breathing slow  
Cause baby  
We're just reckless kids trying to find an island in the flood  
Ooh oh  
Turn the lights, turn the lights  
Down low

And I would give you everything baby. Can you feel this energy take it. You can have the best me baby. And I would give you anything. Can you feel this energy take it. You can have the best of me baby.

Ooh oh  
Turn the lights, turn the lights  
Down low  
Yeah  
Now I'm feeling you, breathing slow

Cause baby we're just reckless kids  
Trying to find an island in the flood  
And Ooh oh  
Just turn the lights, turn the lights  
Down low oh.

Ooh oh  
Turn the lights, turn the lights  
Down low  
Ooh oh  
Turn the lights, turn the lights  
Down low
