

There Is A God

MAX

Oooo
The way that you love me
The way that you are
Makes me believe that there's a God
Nothing above me
Nothing but stars
But you make me believe that there's a...

Waited all my life to feel it
But it never came on Sunday
Praying only hit the ceiling
Conversation only one way
The world'll make ya cynical
Like Heavens only fictional, I
Waited all my life to feel it
I was looking in the wrong place

My eyes were on the sky
Instead of on you
I've been running from truth the whole time

'Cause oooo
The way that you love me
The way that you are
Makes me believe that there's a God
Nothing above me
Nothing but stars
But you make me believe that there's a God
Oooo
Make me believe that there's a God

Waited all my life to feel it
But I feel it when you're near me
Had a lot of pain to deal with
Took a lot of you to heal me

My eyes were on the sky
Instead of on you
I've been running from truth the whole time

Oooo
The way that you love me
The way that you are
Makes me believe that there's a God
Nothing above me
Nothing but stars
But you make me believe that there's a God
Oooo
Makes me believe

Oooo
The way that you love me
The way that you are
Makes me believe that there's a God
Nothing above me
Nothing but stars
Makes me believe that there's a God

Oooo

Makes me believe that there's a God

Oooo

Makes me believe that there's a God
