

# Boomerang

Maxi Priest

Like a boomerang  
If you wanna leave, then you're free to go  
But you say goodbye to all the things you know  
Fly away fly away into the night  
If it feels so good, then it must be right  
Sometimes you take your chances  
You never know what might come your way  
The funny thing about romances  
Gotta know how to play  
chorus  
Like a boomerang rang rang  
Set yourself free  
Like a boomerang rang rang  
You'd be coming back, coming back to me  
Like a boomerang rang rang, like a boomerang rang rang  
You'd be coming back, coming back to me  
Like a boomerang rang rang, like a boomerang rang rang  
You're much too good for me to let go  
Baby I'm too good for you to say no  
We can talk about it, talk about it all night long  
Cause if it feels good, you know it can't be wrong  
What gets into your system  
You can't get away  
There's no pulling up resistance  
She's always coming back to stay  
repeat chorus  
Hot like a fire and cold like ice, she's nice  
Nicer than mi yaki and mi sour fish and rice  
Something so good, you can never let go  
When I turn out the light, I could never say no no no  
no  
Like a boomerang rang rang  
repeat chorus  
You'd be coming back, coming back to me
