

# Bubble My Way

Maxi Priest

Girl

Just the way you make me feel

You will be the reason when I start breathing

Love how you move to the baseline Bubble My Way

Girl come lay it on me like that

Now I would be the reason that you are not sleeping

Up all night with the sweet reggae music a play

Girl come put it on me like that

Cause you make me feel amazing

Girl your mix running through my system

One drop makes my heart stop racing

And I can't get you out of my system

Ahh yeah

You will be the reason when I start breathing

Love how you move to the baseline Bubble My Way

Girl come lay it on me like that

Now I would be the reason that you are not sleeping

Up all night with the sweet reggae music a play

Girl come put it on me just like that

You will be the reason when I start breathing

Love how you move to the baseline Bubble My Way

Girl come lay it on me like that

Now I would be the reason that you are not sleeping

Up all night with the sweet reggae music a play

Girl come put it on me just like that girl
