

Childhood

Maxi Priest

To find a love that's all so right
To find a love that's all so good
I must have done something good in my childhood

I'm right here loving you
You're right here loving me
I must have done something good in my childhood

They say it comes once in a lifetime
So I thank the Lord that we have been blessed with each other mmm
One thing to discover I respect you as a friend and a lover
You do me like no other

You deserve to have the greatest time
You deserve the drink the finest wine
The greatest love is the reason I'm giving this all to you
Now that I found some one for me
I'll be sure to give you all my love
Loving you, you loving me
I must have done something good

To find a love that's all so right
To find a love that's all so good
I must have done something good in my childhood

I'm right here loving you
You're right here loving me
I must have done something good in my childhood

To find a love that's all so right
To find a love that's all so good
I must have done something good in my childhood

I'm right here loving you
You're right here loving me
I must have done something good in my childhood

Turn the lights down low we'll go for hours
I can give you what you want
I can be all you're needing girl
As I know that you're there for me yeah
Wanna show you what I'm feeling
What I believe in
Just the two of us alone
Wanna greet for the weekend I fulfilled your fantasy
A feeling I just can't deny
You're the only one I want in my life yeah
And I just wanna treat you right
Doing anything you feel and you like

;

Somebody who is just like you
Someone who make me feel brand new
The one who makes my life complete
You're the only one I need

To find a love that's all so right
To find a love that's all so good

I must have done something good in my childhood

I'm right here loving you
You're right here loving me
I must have done something good in my childhood

To find a love that's all so right
To find a love that's all so good
I must have done something good in my childhood

I'm right here loving you
You're right here loving me
I must have done something good in my childhood

I'm right here loving you
And you're right there loving me
I must have done something good in my childhood

Should I wake you up in the morning
Try to move you a little closer to my side
Try to say we should stay together for such a long time
When times are good and when times are bad
I'll be there when you're sad just trying to hold you
And I'll be there for you cause I can't let you go

Now that I found someone for me
I'll be sure to give you all my love
Me loving you and you loving me
I must have done something good

Feelings I just can't deny
You're the only one I want in my life
And I just wanna treat you right
Doing anything you feel and you like

To find a love that's all so right
To find a love that's all so good
I must have done something good in my childhood

I'm right here loving you
You're right here loving me
I must have done something good in my childhood

To find a love that's all so right
To find a love that's all so good
I must have done something good in my childhood

I'm right here loving you
You're right here loving me
I must have done something good in my childhood

I'm right here loving you
And you're right here loving me
I must have done something good in my childhood
In my childhood yeah
