Close To You

Maxi Priest

She was A Jezebel, this Brixton queen Livin' the life like a back street dream Tellin' mi lies when the truth was clear I think she knew what I wanted to hear

Spinnin' mi 'round like a wheel on fire Walkin' on tightrope, my love's high wire Fatal attraction is where I'm at There's no escapin' me

I just wanna be close to you And do all the things you want me to I just wanna be close to you And show you the way I feel

I feel love When I'm lying in the midnight hour Holding you just like a dream Love is never what it seems

When we touch And you're holding me the way you feel Girl, you make my dreams come true You make my dreams come true

I just wanna be close to you And do all the things you want me to I just wanna be close to you (Huh) And show you the way I feel (Huh-huh-huh)

She was a Gemini on the cusp of Mars She holds mi back or she too far Windin' mi up just to let her down So emotional, gagged and bound

There's more to this than meets the eye A devil woman locked outside With the full moon rising, I was scared I think I was possessed

I just wanna be close to you And do all the things you want me to I just wanna be close to you (Huh-huh-huh-huh-huh) And show you the way I feel

I feel love Every time your body's next to mine Something deep inside of me Wants to love you endlessly

When we touch Girl, you don't know how it makes me feel I just can't believe it's real I can't believe it's real

I just wanna be close to you And do all the things you want me to I just wanna be close to you And show you the way I feel

She got an attitude, I can't explain You never know if you're in frame Tying me up with elastic words I'm on the countdown till I get heard

Her blood was hot, she burned so bright A neon sign there in the night It's hard to say if I went too far My heart still bears a scar

I just wanna be close to you I just wanna be close to you (Huh-huh-huh)
