

Every Little Thing

Maxi Priest

Baby I love you
Always Always Always

Every little thing about ya
Keeps you on my mind
I never wanna be without ya
Baby always be mine
Cause everytime I have to leave ya
It really breaks my heart
Cause I don't wanna grieve ya
Or tear you apart

Cause I know that girl like you
One in a million
And there's nothing that I wouldn't do
Cause you give me that feelin
Its true
Every little thing about you
Baby it's true
Every little thing about you

Every little thing about you

From the first time I saw ya
I knew you would be mine
I knew that I had to get ya
Only just a matter of time
Cause whenever I see you
You always blow my mind
And that's why I wanna love you
All the time
Its true

Everthing little thing about you -yeah
Baby it's true
Its what I love about you- yeah

Every little thing about ya
Every little thing about ya

Said I know that girl like you
One in a million
And there's nothing that I wouldn't do
Cause you give me that feelin
Its true
Every little thing about you
Baby it's true
Every little thing about you
Said I really love you

Every little thing about you
