

Full Hundred

Maxi Priest

I'm giving a full hundred you can have it all
I'll give you one hundred percent of love
I'm giving a full hundred all through winter, spring and fall
I'll give you one hundred percent of love

Wait a minute now, check my moves you're in my mind, everything I do
Don't stop me now, I'm in the mood to do the things that you want me to

Lady I'm yours, hold tight and don't let go
Lady I'm yours, hold tight and don't let go

Wait a minute now what I'm trying to say
I'm feeling you cause I'm loving you
Everything you do each and everyday
There is no one that could take your place

Lady I'm yours, hold tight and don't let go
Lady for sure, hold tight and don't let go ah yeah ya

I'm giving a full hundred you can have it all
I'll give you one hundred percent of love
I'm giving a full hundred all through winter, spring and fall
I'll give you one hundred percent of love

Forget the past we can make it last
You're such a lady and you're full of class and now I know it yeah
To keep a hold of what we have I wanna show it yeah
Girl you know I'm making my move lady don't go
Keep a hold if you really know lady don't let it go
Take it slow, let it flow don't let it go let it flow

Lady I'm yours, hold tight and don't let go
Lady for sure, hold tight and don't let go ah yeah ya

I'm giving a full hundred you can have it all
I'll give you one hundred percent of love
I'm giving a full hundred all through winter, spring and fall
I'll give you one hundred percent of love

I'm giving a full hundred you can have it all
I'll give you one hundred percent of love
I'm giving a full hundred all through winter, spring and fall
I'll give you one hundred percent of love

I'm giving all I got, all I got
I'm giving you all I, all I got
