

# Hey Little Girl

Maxi Priest

Don't worry Jester, don't worry Jester  
Sister sister sister  
Don't worry Jester with me

Hey little girl so won't you have a date with me  
Me say hey little girl so won't you have a date with me  
I say to meet me at my gate girl a quarter to eight  
I say to meet me at my gate girl and don't be late

Cause it's not the first time since I've been trying baby  
Trying to get next to you darling  
But you keep on building up something baby  
So that I can't get through  
But this time baby I'm going to  
I'm going to baby

Hey little girl so won't you have a date with me  
Me say hey little girl so won't you have a date with me  
I say to meet me at my gate girl a quarter to eight  
I say to meet me at my gate girl and don't be late

I say don't make me late baby  
Don't make me wait  
I beg you don't make me late baby  
Don't make me wait

Cause it's not the first time since I've been trying baby

Trying to get next to you darling  
But you keep on building up something baby  
So that I can't get through  
But this time baby I'm going to  
I'm going to baby

I got to get to got to get to you

Hey little girl so won't you have a date with me  
Me say hey little girl so won't you have a date with me  
I say to meet me at my gate girl a quarter to eight  
I say to meet me at my gate girl and don't be late

Meet me at my gate girl a quater to eight  
I beg you meet me at my gate girl and don't be late  
Cause it's not the first time since I've been trying baby  
Trying to get next to you darling  
But all the time you keep on giving me baby  
Giving me a road black for true  
But this time baby I'm going through  
I'm going to baby

I've got to get to got to get you  
I've got to get to got to get you baby
