

# I Wanna Know

Maxi Priest

It hurts to know mmm I love someone  
I just gotta let go  
Baby  
You know I can't take anymore of your indecision  
It comes right down to this  
I'm giving you an ultimatum  
Don't fight it deep inside you  
You know just what you want  
I want the truth, don't hide it  
Let it go  
I wanna know  
Girl if it's true  
All of the things that we plan to do  
Is it for show  
Are we a crew  
Don't wanna play guessing games with you

I wanna know if you're in or out  
I wanna know what you're all about baby  
I wanna know why you're creeping round  
And all the time we speculate and where it is that your interest is  
I wanna know if you're in or out  
I wanna know what you're all about baby  
I wanna know why you're creeping round  
And all the time we speculate and where it is that your interest is

Said I wanna know now babe  
Said I gotta know now  
Said I gotta know now

The least you could do is be honest girl, honest to me  
It's not so much that I am asking of, asking of you  
Just have some strength and courage  
You've got to let me know  
Girl I just can't hold on  
Let it flow

I wanna know  
Girl if it's true  
All of the things that we plan to do  
Is it for show  
Are we a crew  
Don't wanna play guessing games with you

I wanna know if you're in or out, tell me tell me babe  
I wanna know what you're all about, tell me tell me baby  
I wanna know why you're creeping round, tell me tell me baby  
And all the time we speculate and where it is that your interest is  
I wanna know if you're in or out, said I gotta know  
I wanna know what you're all about, said I gotta know now  
I wanna know why you're creeping round, make up your mind love is doing fine  
And all the time we speculate and where it is that your interest is baby

I wanna know now, ah tell me babe

I wanna know  
Girl if it's true

All of the things that we plan to do  
Is it for show  
Are we a crew  
Don't wanna play guessing games with you

I wanna know if you're in or out, said I gotta know now  
I wanna know what you're all about,  
I wanna know why you're creeping round  
And all the time we speculate and where it is that your interest is baby  
Said I gotta know now oh
