

Just Wanna Know

Maxi Priest

I just wanna know
Say I gotta know what you feel for me baby
Listen

Too many nights I stay wondering about this love
I can't help thinking [?] I'm dreaming of
This feeling takes me over, just won't let me be
Ask myself a simple question, what's in store for me

I just wanna know you feel for me still
I say you trig for me baby
Only wanna know you feel for me still oh yeah

Seems I'm sinking clutching at every dream
Oh I'm praying things get better than the way they seem
Though I convince myself that this love is on the run
I question your devotion it used to be more than fun
What can I do to keep this love alive
I'm doing my best to keep you satisfied

I just wanna know you feel for me still
I say you trig for me baby
Only wanna know you feel for me still oh yeah [x2]

Seems I'm sinking clutching at every dream
Oh I'm praying things get better than the way it seems
Though I convince myself this love is on the run
I needed more devotion cause it seems I'm getting none
So what must I do to keep this love alive
I'm doing my best to keep you satisfied

I just wanna know you feel for me still
I say you trig for me baby
Only wanna know you feel for me still oh yeah
