

Love Train

Maxi Priest

Get on the Love Train
Got to get on board
Get on the Love Train
Got to get on board
You don't need no ticket (Just get on board)
We're on the right road (Just get on board)
On the Love Train
Gotta get on board

I never wanna leave my people behind
Whether black or white
And I don't understand the reasons why
That we have to live apart and stray
For health strength and prosperity
It's there for you, it's there for me
On the Love Train, Got to get on board

See my idea of a love train is to jam
in as one
Like Bobs jamming in the name of the Lord
With hearts and minds with fulfilness
we'll rock this ya train
We'll rock it to and fro
Come the high meek and the lonely
On this train there is no only

On the Love Train, Got to get on board
Get on the Love Train, Got to get on board
Closer we've got to be people
For living is what we need
Together we've got to be people
Loving is what we need

Get on the Love Train
Got to get on board
Get on the Love Train
Got to get on board
You don't need no ticket (Just get on board)
We're on the right road (Just get on board)
On the Love Train
Gotta get on board
