

Love Will Cross Over

Maxi Priest

In God I believe ooh yeah
In God I believe ooh yeah
We rise to another day
So many things to say
Here comes the rain
I know it won't be long
Hope makes me carry on
My life is worth all the pain
So I'm working hard to find some kind of peace of mind
It's what I need to achieve
And even in times of doubt my faith I can't leave with out
In God the King I believe

One Day I know my Lord
Love will take over oh yeah
One day I know
We will cross over oh well
So I walk an endless road
Carrying my heavy load
I know that I'm not alone
And when the day is done
I know the time has come
To give my thanks once more

One Day I know my Lord
Love will take over oh yeah
One day I know
We will cross over oh well
So I walk an endless road
Carrying my heavy load
I know that I'm not alone
And when the day is done
I know the time has come
To give my thanks once more

Soon one day I know
We will cross over
Now there is a time and a place
We've got to run the race
Now there is a lesson to learn, teach them
So we never give up the fight
When we believe we're right
We can overcome

One Day I know my Lord
Love will take over oh yeah
One day I know
We will cross over oh well
So I walk an endless road
Carrying my heavy load
I know that I'm not alone
And when the day is done
I know the time has come
To give my thanks once more

Soon one day I know
Love will take over

Got to believe it
We will cross over I know I know
Oh one day love will take over
I know one day love will cross over
