

# Make My Day

Maxi Priest

I can't believe the way, that I'm feeling  
I can't cool down this fire inside  
Sometimes I try to explain to myself  
But it just keeps on blowing my mind  
There's no place that I rather be then with you  
No better way to spend my time  
So much I wanna give, so much I wanna say  
Now I'm convinced you're all I need  
That's why I say

You make my day, oh yeah  
You make my sun shine in the rain  
Girl you make my day, oh yeah  
Say you bring me joy, when there was rain

I like the way you feel, when you need me  
I love the way you turn me on  
I'm gonna love you till you can't take no more  
Girl, I can't wait to push my key in your door

There's no doubt that you changed me  
And I never knew, it could be this way  
There's so much I wanna give, so much I wanna say  
Now I'm convinced you're all I need  
That's why I say

You make my day, oh yeah  
You make my sun shine in the rain  
Girl you make my day, oh yeah  
Say you bring me joy, when there was rain

There's no place I'd rather be then with you  
No better way to spend my time  
So much I wanna give, so much I wanna say  
'Cause I'm convinced you're all I need  
That's what I gotta say

You make my day, oh yeah  
You make my sun shine in the rain  
Girl you make my day, oh yeah  
Say you bring me joy, when there was rain
