

Rock Steady Love

Maxi Priest

There ain't nothing like true love
There ain't nothing like true love
True love true love

No matter how they feel,
You and me are rock steady
Hold on to the real,
Let go of the petty petty
I wanna give you every piece of me
All you gotta do is keep it real with me,
And don't you you forget it (forget it)
We're rock steady, so rock steady.
You're my only one, baby we're steady.
All I need is you, and all you need is me.
Cause you and me are rock steady baby.

Even when it hurts
(When it hurts oh)
We find a way to work it out.
We know what it's worth, Baby

You're the the only one in this world for me.
Only one for me,
My Rock Steady Love

The woman of my dreams,
Honestly you're so much better
I cannot believe, I get to be with you forever.
Baby you give me all the love I need,
Everyday I show you just how much that means,
So you won't forget it (forget it)
We're rock steady, so rock steady.
You're my only one

Even when it hurts
(When it hurts oh)
We find a way to work it out.
We know what it's worth, Baby

You're the the only one in this world for me.
Only one for me, rock steady love
Oh baby baby baby
(Meee)
Only one for me, rock steady love

Ohhhh
Ohhhh
Ohhhh
Rock Steady Love
Ohhhh
Ohhhh
Ohhhh
Rock Steady Love
