

Sublime

Maxi Priest

Oh oh oh yeah, mmm oh oh yeah
Cool sublime together lemon and lime
Your kiss is from heaven, like rain on my skin
I win you, I loose you and I want you still
Our moments together are stolen from time
And it's gone when I leave you, but this moments is
So sublime

Cool sublime
I want forever the whole of your love
And heaven above
You please me you tease me
And you never decide
And it's all like a stranger, but your love don't lie
Shivering you baby, but break on the tide
On the waves of emotion, till I blow your mind

Sublime oh oh oh sublime yeah mmm

Your kiss is from heaven like rain on my skin
I win you I loose you and I want you still
Shivering you baby, but break on the tide
On the waves of emotion, till I blow your mind

Sublime sublime sublime oh oh oh oh

I blow your mind of I blow your mind mmm
Sublime sublime
