

Sure Fire Love

Maxi Priest

Said, I'm needing you more well
Said, I'm needing you more, oh, girl

The way you say it in your kisses, darling
In everything you do, I just have to talk about you
You're there when the sun comes up
At night you make my dreams come true
Those little things that you do

And if I go away more than a day or two
Each time I close my eyes
I say a little prayer for you

We've got a sure fire love, sure fire love
The more I think of you, oh darling
We've got a sure fire love, sure fire love
Don't change the things you do, yeah

We'll talk about the weather darling
'Cause the way I feel inside
There's nothing but blue skies
And if we spend a little time together
That's how we keep our love alive, oh well

And if I go away more than a day or two
Each night I close my eyes
I say a little prayer for you

We've got a sure fire love, sure fire love
The more I think of you, oh darling
We've got a sure fire love, sure fire love
Don't change the things you do, yeah

And if I go away more than a day or two
Each time I close my eyes
I say a little prayer for you

We've got a sure fire love, sure fire love
The more I think of you, oh darling
We've got a sure fire love, sure fire love
Don't change the things you do, yeah

We've got a sure fire love, sure fire love
The more I think of you, oh darling
We've got a sure fire love, sure fire love
Don't change the things you do, yeah

I love you the way you are, girl
I love you the way you are, yeah
Oh, girl, I love you
