

## Sweetest Love

Maxi Priest

Spinning round in circles like a merry go round  
Looking for my baby but you just can't be found  
Don't you know I love you and that will never change  
I've been branded a fool 'cause my love for you remains  
Don't they say that love is blind

Nothing's gonna change my mind  
Need you here by my side  
The sweetest love the sweetest the sweetest love  
You're the reason that I rise and shine  
The reason why I breathe this life  
The sweetest love the sweetest the sweetest love

Your love leaves me breathless and I have to say  
I want your kisses for my breakfast I need them every day  
If you say you love me my whole world will be this just cool  
I gladly give up everything to prove my love to you yeah  
Don't they say that love is blind  
I be a fool for your love any time  
Nothing's gonna change my mind  
Need you here by my side  
The sweetest love the sweetest the sweetest love  
You're the reason that I rise and shine  
The reason why I breathe this life  
The sweetest love the sweetest the sweetest love

Through the darkness and the night  
I see you standing in the light  
And every part of me is reaching for you  
Show my heart down through my eyes  
And my love has no disguise  
Girl I found heaven in you

Nothing's gonna change my mind  
Need you here by my side  
The sweetest love the sweetest the sweetest love  
You're the reason that I rise and shine  
The reason why I breathe this life  
The sweetest love the sweetest the sweetest love

Nothing's gonna change my mind  
Need you here by my side  
The sweetest love the sweetest the sweetest love  
You're the reason that I rise and shine  
The reason why I breathe this life  
The sweetest love the sweetest the sweetest love
