

Ten To Midnight

Maxi Priest

Ten to midnight, signed, sealed, delivered
Ten to midnight, your place or mine [x2]

Our eyes may fall when you came through the door
I knew right there and then
It was not a question whether or not
But simply a matter of when

And then you smiled for a while
I thought I loose my head
For while your lips said hello, your eyes said let's go
Get wild instead

At ten to midnight, it better be signed, sealed, delivered
Ten to midnight, oh yeah your place or mine (high speed in time
)

Was that poetry in motion, when you stepped into my space
An invitation to temptation written over your face
You were dressed in black with a low cut back
I just had to take my chance
And when you said yes to my request
I wanted more than just a dance

At ten to midnight, it's gonna be signed, sealed, delivered
Ten to midnight, oh yeah your place or mine (high speed in time
)

Oh yeah
Midnight rendezvous oh yeah

Ten to midnight, signed, sealed, delivered
Ten to midnight, your place or mine [x2]

Was that poetry in motion, when you stepped into my space
An invitation to temptation written over your face
You were dressed in black with a low cut back
I just had to take my chance
And when you said yes to my request
I wanted more than just a dance

At ten to midnight, it's gonna be signed, sealed, delivered
Ten to midnight, oh yeah your place or mine (high speed in time
)

The more you get it, the more you want it [x2]
I gotta get it, gotta get it
