

# The Undercurrents

Maximo Park

Town moor trail  
It made my day  
The heavens squeezed  
Their final rays  
We both have a lot on our plate  
Somehow the walk was worth the wait

Tyres rush through  
Rainwater fresh  
Sounds like a shell  
Held to an ear  
Same as the house where I was raised  
Safe in a haven single-glazed

And if you say my time was never spent  
I'll point you to the places that we went

I won't forget the way you forgave me (2x)  
We both have a lot on our plate  
Just think of the heat that we create

I won't forget...

And if you say our time was never spent  
I'll point you to the places that we went  
I won't forget the way you forgave me (2x)

The undercurrents never cease  
Ambition's such a tease  
The undercurrent's always there  
Our hopes are hard to bear  
Don't forget  
It happens to us all  
Don't pretend  
It doesn't happen to us all
