

All the Ways Love Can Feel

Maxwell

I see ya face, you see my face
A thousand races into space
Universal law never makes mistakes
Baby you know, I just want to live and
Do what I can to be my best
Nevertheless, never Settle for less
Higher I go, I'm never quenched
Even though life never goes so right
Do what you feel

All the ways that
All the ways that
All the ways that
Love can feel
All the ways that
Love can rise above
I know you can heal me
I know you can hear me
All the ways
All the ways
Class is in session tonight
Show me the lessons of your life
All the ways that love can feel alive

I see ya face, you see my face
A thousand races into space
Universal law never makes mistakes
Baby you know, I just want to live and
Do what you feel Ohh Uh

All the ways that
All the ways that
All the ways that
Love can feel
All the ways that
Love can rise above
I know you can heal me
I know you can hear me
All the ways
All the ways
Class is in session tonight
Show me the lessons of your life
All the ways that love can feel alive

To the light
To the light
To the light
To the light
To the light
To the light
I see ya face you feel my love
Every part of me goes so raw
Take it away
I just want to live life
I just want to live life
Live
