

# Lake By the Ocean

Maxwell

In the light of the sun  
I was dazed, I was burned, I was lost  
Deep in the storm of a grave  
Had a bed as a coffin  
You were only the one that made me fulfilled  
Only the thing that made me reveal  
My destiny was before us, beach of a forest  
Anything ain't nothing, it's just

It's just you, just us  
Nobody but love  
On trust, on us, nobody now  
Can we swim a lake by the ocean  
We'll be one like drops in slow motion  
Lake by the ocean

Oh tell me the way that is  
Waves like it is the drops of colors  
Why do I live inside of you baby  
Want to be every part of you  
It's just, it's just right, it's just left  
We can be strong, we can wave, we can live oh so long  
Live in a flame where we'll never burn  
No one could ever, ever return  
You are reason I'm on ya, reason I love ya  
You're the thing I need cause it's just

It's just you, just us  
Nobody but love  
On trust, on us, nobody now  
Can we swim a lake by the ocean  
We'll be one like drops in slow motion  
Lake by the ocean

All I see is just  
Everything is lust  
Lake by the ocean  
Sweet like the motion  
Love is the medicine  
I can heal us  
All I see is love  
All I want  
Is love

It's just you, us, body, love  
Trust, us  
(Lake by the ocean)  
Can we swim a lake by the ocean  
(Lake by the, by the ocean)  
Drops slow motion  
Lake by the ocean
