

## Fate Games

### Maylene and the Sons of Disaster

I've been taking my chances  
Living life on the wire  
And everything in between  
And it's caught up to me

Come and take me away  
Angels singing my name  
The final march still awaits  
Fate has taken it's place

All my heroes are shadows  
Will our end be the same?  
Will I follow their lead?  
These walls are coming down  
They're closing in on me

Come and take me away  
Angels singing my name  
The final march still awaits  
Fate has taken it's place

Misery is all that I've found  
There's no way out  
It's coming down on me

Come and take me away  
Angels singing my name  
The final march still awaits  
Fate has taken it's place
