

## Morning

Meg Mac

Hundreds of them are all lined up in front of each other  
They are waiting for someone to call them and tell them they're  
right  
But they're not coming 'til the morning  
They're not coming at all  
You could wait up each night  
But they're not coming at all  
Ohh

Later I'm gonna take it off your hands  
Later I'm gonna take it off your hands  
Later I'm gonna take it off your hands  
Later I'm gonna take it off your

I'm gonna take it off your hands  
And I'm gonna take it off your hands  
And I'm gonna take it off your hands  
And I'm gonna take it off your hands  
And I'm gonna take it off your hands  
And I'm gonna take it off your hands  
And I'm gonna take it off your hands  
And I'm gonna take it off your hands

When I'm gone  
No more 'please come back'  
When I'm gone  
No more 'please come back'

I'm gonna take it off your hands  
I'm gonna take it off your hands  
I'm gonna take it off your hands  
I'm gonna take it off your hands
