

# Evil Twin

Meghan Trainor

(That's my evil twin)  
(That's my evil twin)

It wasn't me, she started it  
I said "just one", then she got lit  
She takes control, she's in my head  
Makin' me make my bad decisions, but I'm innocent  
Two Tylenol for what she did  
So dehydrated, that crazy bitch  
I've had enough, so over it  
Makin' make my bad decisions but, I'm innocent

I get lost in the background  
She's the star of the show  
Gotta deal with her problems  
When she lose control  
I know I can't tame her  
I don't even try  
So let me apologize

That's my evil twin  
No, it ain't my fault  
That's my evil twin  
It wasn't me at all  
Don't be mad at me  
I can't help that she's a wild one baby  
Wild one baby  
That's my evil twin  
That's my evil twin

I never yell, but she can scream  
She loves to give me anxiety  
She talks too much, she never quits  
Makin' me make my bad decisions, well I'm innocent

I get lost in the background  
She's the star of the show  
Gotta deal with her problems  
When she lose control  
I know I can't tame her  
I don't even try  
So let me apologize

That's my evil twin  
No, it ain't my fault  
That's my evil twin  
It wasn't me at all  
Don't be mad at me  
I can't help that she's a wild one baby  
Wild one baby  
That's my evil twin  
That's my evil twin  
That's my evil twin  
That's my evil twin

Even though she crazy, gotta love her cause she hot for me  
Jealous of her confidence and how she moves her body

But she ain't always right  
I'm talkin' bout last night  
So let me apologize

That's my evil twin  
No, it ain't my fault  
That's my evil twin  
It wasn't me at all  
Don't be mad at me  
I can't help that she's a wild one baby  
Wild one baby  
That's my evil twin  
That's my evil twin
