

Good Enough

Melanie C

It could be easy but you're making it so hard
You keep on calling but I don't wanna pick up
We both know what you're gonna say
You're gonna make it so complicated when it could be easy but you're making it hard

You keep trying to fix something that isn't even broken
How can we exist if nothing's ever good enough?

Good Enough, Good Enough
Now you're losing control
Oh there's nowhere to go
When nothing's good enough
Good Enough oooh oh
Good Enough oooh oh
If I leave you behind I believe I will find
Something good enough

I've gotta face it cause I'm not gonna walk away
You're not making easy but I'm not gonna give up
I know that you're hurt
I understand you're misunderstood
This could be easy but you're making it hard

You keep trying to fix something that isn't even broken
How can we exist if nothing's ever good enough?

Good Enough, Good Enough
Now you're losing control
Oh there's nowhere to go
When nothing's good enough
Good Enough oooh oh
Good Enough oooh oh
If I leave you behind I believe I will find
Something good enough

I'm Looking for the answers I can't find
I'm searching every corner of my mind
But nothing's ever good, nothing's ever good
Nothing's ever good enough for you

Good Enough, Good Enough
Now you're losing control
Oh there's nowhere to go
When nothing's good enough

Good Enough oooh oh
Good Enough oooh oh
If I leave you behind I believe I will find
Something good enough
