

Overload

Melanie C

How long can I float
In shark infested water?
No rocking the boat
Don't move, sit quiet, the way I oughta

I don't wannabe your acceptable version of me
I do better alone, oh

Cos you know you're being carless with my love
Take a warning cos the pressure's building up

You don't wanna see me go
You're pushing me to overload
You don't wanna see me go
I've gone before so you should know
You don't wanna see me

Unlocking the door
To truths that I've been hiding
If I said what I thought
You'd realise why I'm still smiling

And I'm not gonna be your acceptable version of me
I don't need you anymore, oh

Cos you know you're being carless with my love
Take a warning cos the pressure's building up

You don't wanna see me go
You're pushing me to overload
You don't wanna see me go
I've gone before so you should know
You don't wanna see me go

You don't wanna see me go

Cos you know you're being carless with my love
Take a warning cos the pressure's building up
I've tried to ride it out but now enough's enough
Why do you treat me so bad when you need me so much?

You don't wanna see me go
You're pushing me to overload
You don't wanna see me go
I've gone before so you should know
You don't wanna see me go
(You don't wanna see me go)
You're pushing me to overload
(You're pushing me to overload)
You don't wanna see me go
(You don't wanna see me go)
I've gone before so you should know
You don't wanna see me go
You don't wanna see me go
You don't wanna see me go
