

Chart Song

Melanie

Well your chart says you're restless
With a long way to go
If your last life was easy
We may never know
How I wish you a life without the fear of pain
And welcome to the world
You have been born again
Don't fear the change

Well I've looked for the meaning
And I've looked through clear light
And I pray you find the grace to stay asleep at night
How I wish you a life without the fear of pain
And life is so much harder when you fear the change
Don't fear the change

Well your chart says you're restless
With a long way to go
If your last life was easy
We may never know
How I wish you a life without the fear of pain
And life is so much harder when you fear the change
Don't fear the change
