

Do You Believe

Melanie

Do you believe it's morning
I'm alive but that's the last thing on my mind
If our nighttime words mean good-bye
Let our morning words be kind
Didn't your eyes say you'd never change your mind
Didn't my eyes say I do believe your eyes
I do believe them, I do believe your eyes

I lose vision once in awhile
We all got grounded at the start
But I still believe in magic
It comes from seeing with the heart
I do believe it, I do believe my eyes
I do believe it, the magic's in our eyes

I went to bed at sunrise
Now I'll sleep the whole day through
My eyes will open to the darkness
And in the darkness will be you
And in the darkness my only light is you
And in the darkness the light is in your eyes

I do believe, I do believe your eyes
I do, the light is in your eyes
Repeat

Do you, do you believe my eyes
I do believe
Do you, do you believe my eyes
I do

I do believe your eyes
I do believe, I do believe your eyes
Repeat
