

# Groundhog Day

Melanie

I've grown fat I've grown a beard I've grown alone  
Seems no one comes to stay in my loneliness  
Sometimes love and sometimes none  
I'm out of luck but I'm not done

Today is Groundhog Day

Take me to a party take me to a room  
Where there ain't no corner  
For me to run into  
I think I'm gonna have to touch everyone in the place  
A game of hearts playing face to face  
How long a line to a space  
Where I look at mine

You know I'm gonna have to touch everyone in their place  
Feel every part tasting every taste  
How much more running in place will it take to find

It's Groundhog Day

I've grown fat I've grown a beard I've grown alone  
It must be a year  
Today it's Groundhog Day, Groundhog Day

Oh take me to a party  
Take me to a party  
I think I hear the music playing, ooh  
Take me out of my room  
I gotta get to a party  
Take me, take me to a party  
Take me out  
I think I gotta get out of my place  
I hear the music playing
