

# Lover Of My Friend

Melanie

Where do I take it  
Where will it go  
I m scared to death of changing what I know for the unknown  
Where will it lead and how will it end  
If I become the lover of my friend

It s been a lifetime, maybe more  
I think we were soldiers  
It must have been war  
We stood for something greater than life  
You took it for me on the day that you died  
Where will it lead and how will it end  
If I become the lover of my friend

What is a friend  
What makes a mother, father, husband, wife, sister  
What makes a brother?  
We just agree, and that s what we do  
You stand by me and I ll stand by you  
Where will it lead and how will it end  
If I become the lover of my friend

Where will I take it  
Where will it go
