

Take Me Home

Melanie

Take me home with you (2x)
After the show I got nothing to do
All of my friends are back home that I knew
So take me home, ok?
We could spend the day

But make sure I'm back here at ten on the dot
Cause no one will get to see me if I'm not
And even if you don't think that I'm so hot
You gotta take me home, all right?
We could sing all night

I'm gonna spend my whole life singing the song
This is the only place where I belong
And no one knows how to love me like you
Where I'm going, so why don't you
Take me home

I lied about the friends back home that I knew
I made them up
I thought that would impress you
Cause even back home there are no friends
So you gotta take me home with you
Take me home with you
