

Little Love

Melissa Ferrick

Hey there little love
Yeah you took me for a ride
All the way across the country
We were waiting for our love to be realized
But you hardly ever even looked at me
Yeah but you gave me no reason to be afraid
But when you finally put your hands on me
Oh yeah you know I thought for sure
I thought for sure I'd been saved

So I let you in
Oh I let you in
Yeah then you took advantage of me
And then I let you down
Oh I let you down by telling you
I thought I might be falling into something

Oh yeah but you
Don't want and you don't need
And you don't wait and you don't love
But you don't know yeah you don't know how I feel
So don't call me and don't write
And don't you dare tell me that you miss me tonight
Cause I need someone whos going to be home when I get there
Little love

Now you tell me that what I do for a living
Yeah well it is actually a turn off for you
Cause I am just smiled at and touched
Yeah and my fingers
My fingers are far too rough
And then I tell you
