

Love Havin' You Around

Melissa Manchester

Every day I want to fly my kite
Every day I want to fly my kite
Every day I want to get on my camel and ride
Every day I want to shake your hand
For in the world making you a better man
And every day I want to get on my camel and ride

And when the day is done
Nothing to do
I'll just sit around grooving with you
And I say it 'cause I love having you around
And I say it 'cause I love having you around

Everyday I want to be your friend
'Cause you have stuck with me through thick and thin
And every day I want to smile
In your lovely brown eyes
Every day I'm gonna get my share
'Cause I know you're gonna take me there

And every day I want to get on my camel and ride

And when the day is done
Nothing to do
I'll just spend all my life
Making faces at you
And I say it 'cause I love having you around
And I say it 'cause I love having you around

And in the end I know you'll be with me
'Cause you made my life-soul so free
And every day I'm gonna jump on my honey and ride

And when the day is through
Nothing to do
I'll just spend all my life
Getting crazy with you
And I say it 'cause I love having you around
And I say it 'cause I love having you around
