

So you know
Nobody cares about your program
Give it up
The wet dog in you is impressive

You've got that black dog angry lips
That won't get you in
Your sweet ass liquid hair doesn't concern
Nothing more
Than a second hand store spoiled dress

Style it up while the rest of the world needs saving
I give up several years in the making

You've got that black dog angry lips
That won't get you in
Your sweet ass liquid hair doesn't concern
Nothing more
Than a second hand store spoiled dress

Leave before they pull you back into it far into it gone into i
t forever
Dumb bastard
Just in time to give it away amazing
Are the limits what will you say amazing
Just in time to give it away you precious thing

You ask for understanding beauty well
That is more than I could ever give you now
I only wish the best for you lovely one
Be my catcher in the rye

Leave before they pull you back into it far into it gone into i
t forever
Dumb bastard
Just in time to give it away amazing
Are the limits what will you say amazing
Just in time to give it away you precious thing
