

# Elephant

## Mellowdrone

In the middle, happiness  
Unrelenting nakedness  
9/11 euphemy, in the middle

Angry label's emphases  
Modern women  
Drunken men  
I remember when we met, in the middle

There, there's nothing you can do about now  
So sing along, 'cause if it's you  
You'll do for all

Elephant, oh elephant  
Please don't forget your number  
Elephant, oh elephant  
One step ahead of time

This is America  
American show

Elephant, oh elephant  
One step ahead of time

Broken compass never works  
Just like magic, and your church  
They can sing it, so can we  
In the middle

Sipping water blissfully  
From her point of entry  
I remember when we met  
In the middle

There, there is something you can do about it now (do about it now)  
So sing along, 'cause if it's you  
You'll do for all

Elephant, oh elephant  
Please don't forget your number  
Elephant, oh elephant  
One step ahead of time

This is America  
American show

Elephant, oh elephant  
One step ahead of time

I feel lighter, lighter  
From the choir muse right here  
I feel lighter, lighter  
Baby won't you listen?

I feel higher and higher  
From the choir trying  
I feel high and higher

Baby won't you listen?

Elephant!

Don't you forget your number

Elephant, oh elephant

One step ahead of time

This is America

American show

Elephant, oh elephant

One step ahead of time
