

# Fuck It Man

Mellowdrone

Starting now  
Is you, you shut your mouth  
Swollen lips  
Are slowly drilling into my heart

What happens next  
Is I take what's left  
My ears compress  
While you sing that Anthem of yours

Fuck it, man, try and get out while you can, while you can  
Everyone is outside, laughing  
I don't know what she's trying to sell to you  
But there isn't anyone upstairs at the controls

I want it known, that I, I tried my best, stop  
I was loyal, her majesty threw plenty of blows  
That being said, I played the same, I'm as much to blame  
Self preservation gives you no choice

Fuck it, man, try and get out while you can, while you can  
Everyone is outside, laughing  
I don't know what she's trying to sell to you  
But there isn't anyone upstairs at the controls

Fuck it, man, try and get out while you can, while you can  
Everyone is outside, laughing  
I don't know what she's trying to sell to you  
But there isn't anybody upstairs at the controls

Store it forever, then you show it whenever  
The temperatures wearing us down  
Degenerate error, could always be better  
Than sitting here pissing around

Fuck it, man, try and get out while you can, while you can  
Everyone is outside, laughing  
I don't know what she's trying to sell to you  
But there isn't anybody upstairs at the controls
