

Lady In Her Underwear

Mellowdrone

Hey lady, have some morning's juice
At least you know it's good for you

Out walking in your underwear
Seems right out in the Summer air
Do you think I'd lie?

This could be the last time
That you've noticed

Stop to take and make your room
A warm place 'til your pedals bloom
Let us eat no more

Out walking in your underwear
Seems right out in the Summer air
Do you think I'd lie?

This could be the last time
That you've noticed
This could be the last time
That you've noticed

This could be the last time
That you've noticed

This could be the last
