

Never Alone

MercyMe

It's been one of those days
When everything just feels so far away
Hope don't be a stranger
Won't you help me make it through today?

Then a voice comes calling out to me
You're never alone cause I am with you
And I will always be
I will hold you cause you belong to me
You're never alone cause I'll be with you
For all eternity

Someone tell me how I
Stumble into doubting all the time
Some days I'm all together
And other days I stand here asking why

Then a voice comes calling out to me
You're never alone cause I am with you
And I will always be
I will hold you cause you belong to me
You're never alone cause I'll be with you
For all eternity

Then a voice comes calling out to me
You're never alone cause I am with you
And I will always be
I will hold you cause you belong to me
You're never alone cause I'll be with you
For all eternity

[repeat]

You're never alone
You're never alone
