

# Travelin'

Merle Haggard

I know we know I won't be here for long  
A travelin' man will do what he can  
'Till he hears that travelin' song

Born in a little town  
I left home around bout the age of nine  
Been everywhere a time or two doin' what I wanna do  
Leavin' little girls behind

I know we know I won't be here for long  
A travelin' man will do what he can  
'Till he hears that travelin' song

If you see me twice take my advice  
And don't play me no tune  
When I hear my song it won't be long  
I'll be leavin' soon

I know we know I won't be here for long  
A travelin' man will do what he can  
'Till he hears that travelin' song

As I travel along I sing my songs  
I'm happy as can be  
I'm free as a bird you can take my word  
Traveling's a life for me

I know we know I won't be here for long  
A travelin' man will do what he can  
'Till he hears that travelin' song

I know we know I won't be here for long  
A travelin' man will do what he can  
'Till he hears that travelin' song
